

I'm a resident of Indiana, and the no call policy established the the State Attorney General, I fully support as is. The CBA which is trying to undermine this law, does not have my best interest at mine, only their profit margine. I am fully opposed, any changes to the law as it is now. I value my privacy at home, and my telephone is not for the Bankers, Credit Card compaines and others to do their sales buisness and bother me with their unsolicited.
